127 Marlpit Lane: This garage has been there since Marlpit Lane was first developed, and has been Robe & Hitchens since 1968. On their website they say: ‘We offer professional repair services using the skills and talents of a highly experienced team of technicians, with an incredible 75 years of combined trade experience. We provide a complete range of services covering every aspect of modern vehicle care’.

Mr.Ganfield: This blacksmith occupied the building to the rear of the garage for many years. I have no information about him but I know he was there, followed by his son from the 1950s to the 1980s.
